# MEETING LIST MAINE

## WINTER 1994

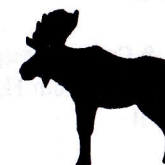

"When at the end of the road we find we can no longer function as human beings, either with or without drugs, we all face the same dilemma. There seems to be this alternative: Either go on as best we can to the bitter end—jails, institutions or death—or find a new way to live. In years gone by very few addicts ever had this last choice. Those who are addicted today are more fortunate. For the first time in history, a simple way has been proving itself in the lives of many addicts. It is a simple spiritual—not religious program, known as Narcotics Anonymous."
